

CURRICULUM VITAE / Samuli Korpinen

01/06/2021

Work address: Finnish Environment Institute, Latokartanonkaari 11 FI-00790 Helsinki, Finland
Tel: +358406618977 (work)
Email: samuli.korpinen@syke.fi
Nationality: Finnish
Gender: Male

PhD in Marine ecology, Adjunct Professor in Aquatic Sciences in Univ. Helsinki.

CURRENT RESEARCH INTERESTS

I have the privilege of working between multiple research fields and between science and policy. As the coordinator of expert work for the Finnish marine strategy, I can participate in new research areas, steer scientific efforts and also communicate these into the policy side (see publications). On top of these, my personal favorite research is in cumulative effects and adverse effects on marine environment. Latest achievement is the assessment 'Pressures and their effects in Europe's seas' for EEA. Not surprisingly, many of the latest papers deal with assessment methods. My old research interest in benthic ecology is still active thanks to the challenges raised from the MSFD implementation. Linking these with the cumulative effects science is rewarding and fun.

WORK EXPERIENCE

Finnish Environment Institute (SYKE), 1.8.2013 –

Occupation: Research Manager (1.12.2013-)

Current activities and responsibilities: Leading the national project for the marine strategy. Coordination of the national development of the monitoring programme, environmental targets and indicators for the marine strategy; developing a method to estimate cost-effective measures (update of HELCOM BSAP in ACTION project). Finland's representative in MSFD WG GES. Author of marine assessments in European Topic Centre (ETC-ICM) for EEA.

Past activities: HELCOM HOLAS II, benthic research coordination; vice chair of the HELCOM WG STATE & CONSERVATION (2016-2017).

Projects: European Topic Center (ETC-ICM), HELCOM ACTION, HELCOM SPICE, BalticBOOST, HELCOM TAPAS, MARMONI (Life+), MARISPLAN, DEVOTES, STAGES, CORESET II, DETECT.

Occupation: Senior Research Scientist (1.8.-30.11.2013)

Baltic Marine Environment Protection Commission (HELCOM), 1.5.2008 – 31.7.2013

Occupation: Project Manager

Main activities and responsibilities: Coordination and management of HELCOM CORESET project. Co-editor of HELCOM Initial Holistic Assessment. Development of the Baltic Sea Impact and Pressure Index, Development of the assessment tool HOLAS. Coordination of the expert network for the Thematic Assessment of Hazardous substances. Participation and authoring the thematic assessments of eutrophication and biodiversity.
